EDITOR'S NOTE.

Previous Volumes of the Register have not been purchased in the numbers necessary to free the Club from bearing a considerable part of the cost of production, the Committee have decided, therefore, that future Volumes must be produced at much less cost, the present Volume follows that policy.

With this present Volume a step has been taken to make the Register even more useful than in the past, by "starring" all those cats or kittens who can show a Registered Pedigree for three generations.

The greatest possible care has been taken in the compilation of the records, but mistakes are bound to have crept in, and if such mistakes are pointed out to the Registrar and corrected particulars sent to him, they will be printed in a special list in the next issue.

There are 605 entries in this Volume.
